Dear Colleagues,

We are excited to introduce our journal “**Academic Journal of Neurology and Neurosurgery (AJNN)**” to you after a long preparation process. At the same time, we aim to publish original articles of high scientific and clinical value in the fields of neurology and neurosurgery in our journal. We are striving to be a journal indexed first in national indexes and then in international indexes. The target audience of our journal includes neurologists, neurosurgeons, specialty students, and healthcare professionals interested in this field.

We are delighted to present the first issue of our journal, which will be published four times a year. We extend our gratitude to our valuable colleagues who served on the advisory board and acted as referees to enhance the scientific value of the articles, and to Medihealth Academy Publishing for their support in this process.

Kind Regards,

Spec. Engin YÜCEL, MD
Assoc. Prof. Şeyda ÇANKAYA
Editors-in-Chief
